

VENDING SOLUTIONS

No matter your location, tastes, needs, and cravings, we've got the right vending equipment and products for you.

HEALTHY SNACKS

We offer the largest selection of healthier snacks than pretty much anyone else in the business. From Clif Bars to Terra Chips to a mix of trail mix, our snack selection is unparalleled.

TRADITIONAL SNACKS

Healthier snacks gave us our reputation, but we understand the demand for, um... more indulgent options. That's why we can also hook you up with all the traditional chips, chocolates, and candy bars that have been enjoyed for years.

DRINKS

We're a one-stop shop for liquid-y thirst quenchers: Juices, Teas, Coke, Pepsi, energy drinks, fizzy drinks, sports drinks, all-natural drinks, and milk made from just about anything that can make milk. Oh, and let's not forget water.

COFFEE

We provide great-tasting coffee two ways: 1) We can place a state-of-the-art coffee vending machine in your office or 2) We can provide you with commercial coffee brewers, filters, the works, so that you can brew fresh pots of coffee each day.

GUARANTEED DELIVERY

All of our machines come with a feature called "Guaranteed Delivery," which tells the machine to give you a refund on the spot if your item doesn't vend properly. Yeah, we thought you'd like that.

REMOTE MONITORING

Our machines send us data so we always know when your vending machine is getting low on product and needs to be restocked. We're geeks about this data.

CASHLESS PAYMENTS

Don't have cash? No problem. Our machines take debit cards, Visa, Mastercard, AMEX, and Discover. You can even pay using Tap&Go payments such as Apple Pay.

LeanGreen Vending services the greater Chicagoland area. Please call to enquire if we cover your area.
