

## TO SERVE AND VEND

Whether you're a school, office, health club, hospital, park district, YMCA, etc... our mission is to vend like no one has vended before! We have a broad range of customers, each unique in their vending needs. That's why we go to great lengths to listen to what you're looking for and then deliver the best fit of equipment and products to meet your needs.

## WHO WE SERVE

Is the vending status quo as good as it gets? Nope. At LeanGreen Vending, we listen and we deliver. Our Customer Service is unparalleled. We could go on and on about why our service is different but our customers say it so much better.

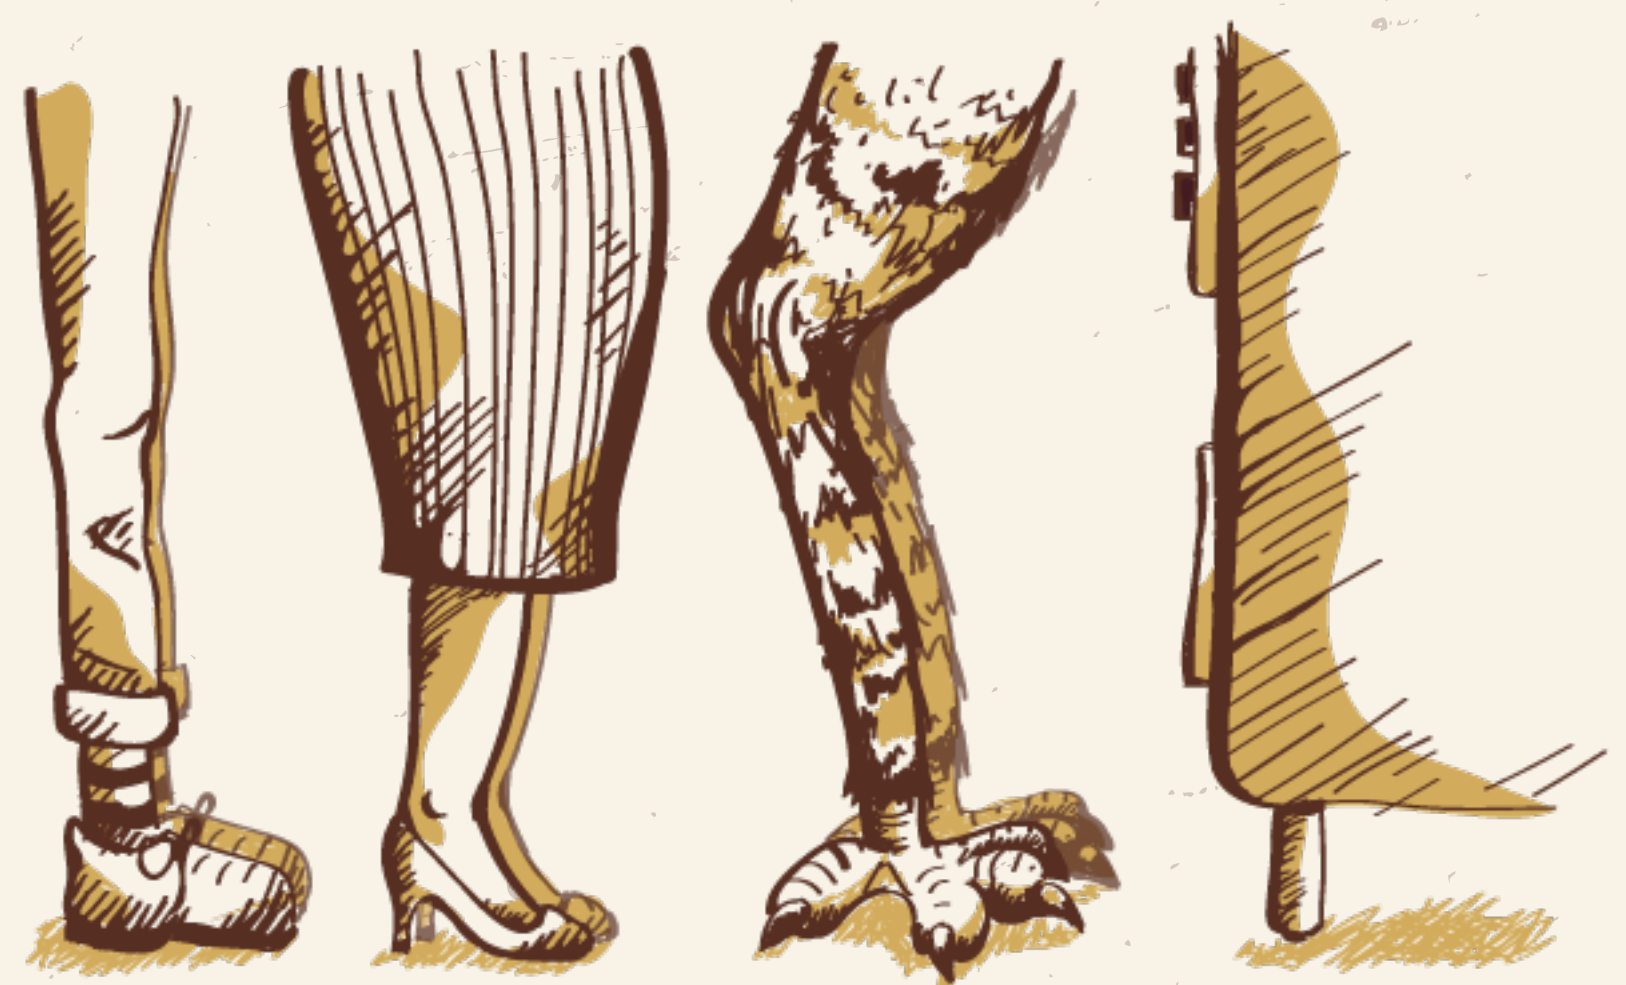

## TESTIMONIALS

# SOMETHIN' FOR EVERYONE

Snack machines? Check. Cold drink machines? Ditto. Coffee? You bet. Micro-Markets? Piece of cake. Piece of Cake machine? Um...no. But we do offer ice cream vending! Whatever your location needs, we can provide modern, attractive equipment and a better (and broader) product selection.

## VENDING SOLUTIONS

We started with just one vending machine in 2011. In less than 3 years, we now cover all of Greater Chicago. [Click here](#) to read more about our humble start and how we got this far this fast – with class.

## ABOUT US

## GIVE US A SHOUT

Getting set up with our vending service couldn't be easier. We start with a chat, follow that up with a visit, and it's gravy (low-fat gravy of course) after that.

Whatever form of communication you prefer, we look forward to starting (or continuing) the conversation with you.

## CONTACT US

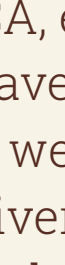

## CHANGING THE CHICAGO VENDING LANDSCAPE

LeanGreen Vending is the new standard of how vending ought to be. We take great pride in our product selection, especially healthier options, as well as our hi-tech machines. Because we are based in Chicago, we get to know our clients more deeply and can provide more personalized service. You'll know the difference because you can ask us, face-to-face, person-to-person.
